

Steam generator ST-150

The steam generator installed mobile...

**Quick:
Curing process too quick,
to believe !**

... with parking brake !

What is the steam generator ST-150?

An ingenious **steam generator for faster curing** of impregnated liners especially for **sewer rehabilitation**.

Advantages of the steam generator ST-150

- lightweight and mobile
- better heat-transfer on to the liner
- short heating up and hardening time
- large time saving during hardening process
- easy handling after curing (removing of the calibration hose)
- temperature adjustment for steam-air-mixture
- adjusting tap for cooling process of the liner
- fully automatic water softener
- fully automatic dewatering for safety in winter
- tankless air cooling
- parking brake (optional)
- data recording (optional)
- interface for the documentation unit DOCUBOY for sewer renovation (optional)

Technical data

Voltage	230 V / 50 Hz
Steam generation	max. 150 kg/h
Length	1900 mm
Width	625 mm
Height	1475 mm
Weight	approx. 450 kg

Subject to technical amendments.
